WASTING OR SAVING, WHICH?

Our entrance into the war has brought us to the point where it becomes a national duty for every citizen to save and eliminate every form of waste. Not only the fate of the civilized portion of the old world, but our own as well is almost wholly dependent upon the manner in which we produce and save.

You can husband your financial resources by saving the pennies and depositing them in this bank. It will prevent your wasting them on useless and trivial things when later they will be in demand for necessities.

This bank invites you, as a loyal citizen, to begin saving now. If you are not a depositor, a dollar will open an account for you, and you can deposit at any time in any sum from a dollar upward. We pay 4 per cent, compounded semi-annually.
